DEVELOPING VALUE CHAIN

KNOWLEDGE DISAMINATION

Global Geo-political environment is against the pace of global trade specially for exports from India, with ongoing situations in Israel, Russia, Ukraine and now in Bangladesh a lot of manufacturers and exporters from India are facing unparallel challenges.

Solution is to diversify, make ways for newer markets and new demographics with market fit products.

- Global value chain – the India context
- Role of ESG in India centric sourcing
- Strategies for growing global footprints

DESIGN & INNOVATION

To achieve \$2 trillion goods and services exports by 2030, we need to innovate, invest and build robust system and process for our production clusters. Reducing production losses, bringing enhanced outputs, yielding optimized results and showcasing modern Indian products to the world is what we aim to make our suppliers aware of through this mega show cum conclave.
